

Yes, it is cloth. Yes, it works. And yes, it is beautiful!

The little cloth mask that changed the world of sleep therapy.

Simple & Elegant:

Mask. Connector. 3-point headgear. One size fits most. Nothing else to it.

Proven Technology:

SleepWeaver brand of lightweight soft cloth masks has been in use for years. The mask of choice for users that are tired of hard, heavy, plastic masks.

Zzzephyr Seal:

The secret is in the seal. A special cloth material that gently inflates like a balloon to achieve a seal around the nose.

Loose Fit Headgear:

Traditional hard plastic mask straps can be pulled uncomfortably tight to get a good seal. SleepWeaver soft cloth masks seal with loose fitting straps – it is just a better way to sleep.

Nothing Breathes Like Cloth:

Special breathable cloth design eliminates fogging common in hard plastic masks. Keeps skin dry and comfortable.

Lightweight:

What could be lighter than a thin piece of cloth?!

"Thank you for this comfortable mask!"

*Marie D.
CPAP User
Nord-Pas-de-Calais,
France*

"It is so light and comfortable."

*Graham C.
CPAP User
County Down,
Northern Ireland*

"I love this mask!"

*Michael D.
CPAP User
Lower Saxony,
Germany*

"This is the most comfortable mask I have tried."

*James O.
CPAP User
Ontario,
Canada*

SLEEP WELL TONIGHT

Accommodates Eye Glasses:

For those who want to read or watch TV while in bed, SleepWeaver Advance allows users to wear eye glasses with the mask on.

The Joy of Soft Cloth:

No one can deny user preference for soft cloth against their face as opposed to rubber, silicone and other gels. Cloth mask eliminates the need for a cushion or nasal pad.

Continuous Improvement:

SleepWeaver Advance has come a long way, incorporating the latest feedback from user groups and online social networks.
