

What advice would you give to someone considering the Transcend Micro?

Powerful Testimonials from Transcend Micro Users

"My Transcend Micro CPAP has made my nights much more restful. Works like a champ. I love that it is compact and light. I'm so thrilled how much easier my life is when on the go. I love it."

— Annie S.

"Very practical and easy for travel. Perfect choice for short trips and long-haul flights."

— Saoud A.

"Very easy to pack and carry. A must have and definitely worth the price. **I sleep much better on the go.** I am really happy with the results and the humidifier option."

— Denise S.

"The Transcend is very portable and convenient for travel. Just as comfortable as my regular-use machine. Packs easily in carry-on luggage."

— Roger C.

"I traveled to Italy with my Transcend Micro. **Its size and weight made it very convenient to continue my therapy.** I sleep better and require less sleep. I like the way [it] ramps up and dries itself after use."

— Paul S.

"It has helped me tremendously during my travels. I sleep better and [am] thus able to enjoy my vacation. Convenient to carry, as compared to the regular machine."

— Khalid T.

"**The Transcend Micro is heaven for travel.** You will be amazed at the convenience and portability of this device with the same power as your home device. I have zero lag in sleep quality and air intake. I can even pop it out if I feel like taking a nap on the couch during a lazy Sunday. **This is a miracle machine.**"

— Stacy H.

What advice would you give to someone considering the Transcend Micro?

Powerful Testimonials from Transcend Micro Users

"The Micro works great when I travel. Very quiet. Very small. Easy to bring along. I can use my current mask with it. The AirMist works well for added humidity."

— Gary P.

"Maintaining my sleep therapy was easy with the Transcend Micro. It was lighter and less bulky to travel with. The Micro allowed me the energy to enjoy a very demanding one month trip. I was one of the oldest people in the tour group, yet I was able to maintain similar activity levels of people 10 years younger. I attribute that to the quality sleep I was able to get. I love that I didn't have to deal with any water, much less distilled water, to operate the machine.

When there was a concern about sporadic loss of power, the portable battery took care of that problem. I never had to miss a night of improved sleep.

The Transcend Micro is a must for travelers. I even use when I'm traveling an hour away to visit grandkids. It's easier to pack and carry than my at-home machine. With the extra battery, I can even use the machine for camping for 2-3 nights. I no longer snore so I'm able to travel with friends without disturbing their sleep.

I'm ready to travel the world!"

— Mary L.

"Do it! It's a game changer!" Transcend Micro made a huge difference in my latest travel experiences. I recovered more quickly from jetlag, and the Micro is so small, I was able to travel with only carry-on luggage. I love the small, easy-to-pack factor. **I prefer the Transcend Micro to my home CPAP.** The sound level is manageable - my spouse isn't bothered. Sure beats my snoring! The battery backup is a real plus as we lost power one night while in Africa."

— Douglas S.

"Transcend Micro is my second portable CPAP and a HUGE improvement over my original device. This device has allowed me to do the things I enjoy without sacrificing my sleep therapy. It's small, durable and easy to use. With a travel position, a small portable CPAP is critical to my well-being. I travel two weeks out of every month and my Micro has been with me the entire way. I can use the headgear I want and not be forced to use something else. Bottomline, I am not limited to where I can go with my Transcend Micro."

— Robert B.
